

Cassette awning

markilux 6000

A designer cassette awning that is individually modifiable in both colour and specification. The enormous variety of combinations of both the visual and technical aspects makes this awning unique.

Product characteristics

Description

- top-quality ovally shaped designer cassette awning, presented with the reddot design award.
- extremely robust construction, ideally suited for shading large areas

Special features

- option of shadeplus up to a projection of 350 cm – vertical protection against low-lying sun and inquisitive glances integrated into the front profile, can be operated by radio remote control
- option of adjustable LED spotlights RGB-WW in the front profile – to create a pleasant atmosphere
- option of a silentec motor – motor noise is appreciably reduced
- the awning frame colour and end cap options can be freely combined (end cap trim and insert for the cassette, end caps for the front profile)

Dimensions

- cassette in the standard version: depth 255 mm, height 165 mm
cassette with drop valance: depth 317 mm, height 165 mm (without brackets)
- single unit: minimum width 205 cm at the smallest projection of 150 cm, maximum width 700 cm at the largest projection of 400 cm
- also available as a coupled unit

Roller tube and lateral bearings

- Round roller tube Ø 85 mm with keyway, galvanised steel – excellent stability, ensures near perfect cover performance even at the largest widths
- the cassette side caps are made of die-cast aluminium, powder coated

Blind profiles

- extruded aluminium, in façade quality, powder coated
- cassette in two parts with integrated cover profile – offering optimum protection of the awning cover against the weather
- semi-circular front profile with integrated gutter

Folding arms

- Profiles in extruded aluminium, in façade quality, powder coated
- Moving parts made of drop-forged aluminium – the arms are therefore extremely fracture resistant
- Pivot bolts in stainless steel run in Teflon-coated bronze bushes - practically maintenance free, virtually silent and extremely hard wearing
- power transference via the innovative bionic tendon at the elbow joint, made of high tensile, hightech fibres – low in friction, noiseless, insensitive to corrosion and UV resistant, tested by the Fraunhofer institute

Side caps

- the cassette end caps are made of high-quality plastic, consisting of trim and insert sections
- end cap trim powder coated or in polished chrome, end cap insert powder coated or made of stainless steel mesh
- the front profile end caps are made of high-quality plastic, powder coated or with a polished chrome finish, with water drainage holes

Fixture brackets

- face fixture, top fixture, eaves fixture
- extruded aluminium, powder coated
- brackets with elegant cowling made of plastic, powder coated
- pitch range 5°–35° or 36°–70°, infinitely adjustable
- spacer plates, stand-off brackets and other accessories are available

01 **Frame and end cap colours**

02 markilux frame colours without surcharge

03 traffic white, RAL 9016

metallic aluminium, RAL 9006

grey brown, similar to RAL 8019

06

07 off-white textured finish, 5233 ¹⁾

stone grey metallic, 5215 ¹⁾

anthracite metallic, 5204 ¹⁾

12 havana brown textured finish, 5229 ¹⁾

16 end cap trim in polished chrome

end cap insert in stainless steel

trim in polished chrome and insert in stainless steel

Combination options by example of the frame colour stone grey metallic 5215 – possible in any frame colour.

Non-standard powder-coated finish

Bespoke frame colours incur a surcharge – matt, metallic, finely textured and pearl finishes as well as other colour ranges (DB, Tiger etc.) on request. All frame colours are available at a surcharge with enhanced corrosion protection.

Colours may differ slightly from those depicted in both hue and finish.

1) textured finish
